

Fight Back America is the United Steelworkers Associate Member Program's Campaign to build power through community action by:

- Improving peoples' lives;
- Bringing people together to fight for good jobs;
- Advocating for access to good healthcare;
- Advocating for a clean environment; and
- Strengthening union ties to all working people and our natural allies, such as students, environmental, and human-rights advocates.

The United Steelworkers have always fought for social and economic justice. Fight Back America is reaching out beyond the traditional workplaces to anyone, no matter what their job or profession. Anyone can join the Steelworkers, even if they do not have a union where they work, in the fight for global justice.

Currently, over 25,000 people have joined the Associate Member Program. Our members come from a variety of backgrounds, including former USW members, students, retirees, and other progressive activists. In USW District 9, we have over 1,500 members to date and hope to double that number by the end of the year.

We believe that a better vision for the world is possible – but we must act now for change. Together we can make significant improvements in the lives of working families!

Other benefits of the Associate Member Program:

- It is FREE to join and remain a member!
- You will receive a copy of our quarterly publication, *USW @Work*.
- You will receive access to the USW's UnionPlus Benefits.

Check out the Associate Members website and sign up at http://usw.org/join_us/, or fill out the form below.
